GARVEY ON PLATFORM TOLD NEGROES BUILD UP ECONOMICALLY, DUBOIS OPPOSED; GARVEY IN JAIL, DUBOIS TELLS TRUTH

Fellow Men of the Negro Race, Greeting:

I believe that the problem of the Negro race in America in another fifty years is going to be solved through economics and through the starvation of this race of ours by the white man, if the Negro does not look out and reorganize himself to become industrially and economically independent.

It is because of that that the Universal Negro Improvement Association is endeavoring to build up a great government of our own in Africa so that politically and industrially we can be strong enough to take care of our people all over the world. If you can build up an economic Africa, if you can build up an industrial Africa, then you will be able to protect Negroes all over the world.

Du Bois Is Learning

I rejoice that Du Bois is gradually learning that sending telegrams of protest, writing letters of condemnation, sending out cooked-up press releases and agitating anti-lynching crusades will not materially help the poor Negro of America. At last he is talking sense. He is reported to have made the following statement in a speech at Kansas City:

Buying Power of the Negro

"The buying power of the Negro is the most tremendous force within his reach today. It is greater by far than the vote. The economic condition and the buying power of the Negroes has changed in the last few years. It has grown more powerful—and only Negroes themselves do not realize it. The Negro must get hold of some of the credit of the world. Credit will open up for Negro organizations when they realize where their credit ought to go

NEGRO, THINKING OF HIMSELF FIRST, MUST BECOME ECONOMICALLY AND INDUS- TRIALLY INDEPENDENT, SAYS GREAT LEADER

To Attain This Negroes Must Build Up Great
Government of Their Own in Africa
Which Will Protect Them All
Over the World

Serious Times Ahead, and All Is Lost Unless Negroes
Support the Program of the Universal Negro Im-
provement Association—If This Is Not Done
Now, Fifty Years Hence the Negro Will Be
Denied the Very Means of Existence

and ought not to go. This, and this alone, will force a changed attitude."

Bravo for faker Du Bois! If only this was said by someone really sincere and interested in the higher independent development of the race! Imagine Du Bois saying this when he condemned every effort of mine to establish the Negro economically.

Truth Will Out

He plotted against the success of the Black Star Line, Inc.; he undermined the activities of the Universal Negro Improvement Association to teach Negroes these truths, and now I am in prison, and now that he finds his N. A. A. C. P. only a windbag and that the public is giving it its true valuation he makes a show of attempting to tell the Negro the truth.

Take the truth, is my advice to you, but be careful of Du Bois, for he is a Jekyll and Hyde. It is passing strange that before my incarceration he could not find in his heart to say the things he says now that I am behind prison bars—a condition to which he contributed. Beware of the Greeks bringing gifts!

I am more strongly convinced than ever

that the Universal Negro Improvement Association will win out in its policy and put the senseless critics to shame. The efforts of the Negro should be concentrated upon making himself industrially free, I repeat, making himself industrially and economically independent. And that, among other things, is what the Universal Negro Improvement Association is endeavoring to inspire.

Survival of the Fittest

As I have often said, the purpose of the world is to supply the needs and wants of the people therein, and the purpose of the people in the world is to get the most out of the world, to get the most that the world yields. We have reached a point now where all people who are joined by ties of blood are struggling as a compact whole to get for themselves that which is not enough to be divided among everybody. And if the Negro does not rouse himself and think in terms of race; if the Negro does not cease his nonsensical talk about being German, British or Portuguese he will find to his chagrin that his very existence, even on the lowest scale, will be seriously jeopardized through the systematic, unified efforts of other races and peoples to secure the things that are necessary for existence and comfort and which, in view of the ever-increasing demand, will not be enough for all.

Serious Times Ahead

We are facing serious times, and from my vision and knowledge of things there is only one way that I perceive in which we can climb the ladder of life, and that is by supporting the program of the Universal Negro Improvement Association in all its branches and making ourselves industrially, economically and politically secure and independent.

Be Negro first, is my considered advice to you, and all else will be added to you.

People of Afghanistan Rebel Against Emir Who Is Tool of Imperial England—Disaffection May Spread Throughout India, Is Fear

LONDON, June 2 (AP)—British forces in India are moving to the vicinity of the Afghanistan frontier, as the result of reports reaching official circles here of an imminent general uprising in Afghanistan against the Emir.

The reports to official circles in London say that the Emir has been rebelling to spread, rather than to check it. The disaffection spread through the hill tribes of Afghanistan and these tribes in turn exert an influence on the tribes on the Indian side of the frontier. For this reason, gravity was attached to the situation of the Emir.

According to these reports the forces opposing the Emir have been active in the past three months, culminating in the recent execution of the Emir. Despatches to official quarters here say that the execution was the result of a rebellion to spread, rather than to check it. The disaffection spread through the hill tribes of Afghanistan and these tribes in turn exert an influence on the tribes on the Indian side of the frontier. For this reason, gravity was attached to the situation of the Emir.

British observers have reported there is little possibility of any direct attack being made by the rebels against the British forces, but it is considered likely that the Emir will have to abdicate unless he can gather his supporters immediately and inflict decisive defeat upon the British. The British Government has been advised that the Emir promises not to allow Soviet agents to enter territory under his control, and to maintain a certain distance from the Indian frontier.

As a result of alleged Soviet attempts in 1918 and 1919 to establish a foothold in the northwestern frontier, the British Government has been especially watchful of Afghan matters. It has also maintained a strong defense at the frontier since German attempts to enter India from Afghanistan and the north west during the World War.

Despatches from Allahabad, India, May 26, stated that the Allahabad Pioneer has quoted that 5,000 boxes of ammunition had been handed over to the Emir, and that the British Government has been advised that the Emir promises not to allow Soviet agents to enter territory under his control, and to maintain a certain distance from the Indian frontier.

Despatches from Peshawar and from Simla, India, May 28 and 29, said fifty boxes of ammunition had been handed over to the Emir. The rebellion had been reported in the Khost district of Afghanistan.

Lafayette Esajas, an intrapud Spanish woman journalist, ventured into the fastness of the Atlas Mountains in Morocco and obtained the accompanying interview with Abd-el-Krim, the Riffian leader. The Riffians in the present war with France, it is the first direct interview with the great Arab chieftain, who has been a religious war that would menace the greater part of the African continent.

Appeals Court Upholds Property Restriction On Ground of Color

WASHINGTON, D. C.—Agreement among hotel property owners to restrict the sale or rental of property in their respective localities to white persons only, to the detriment of prospective Negro renters, or purchasers, were held to be valid, last week, by the Court of Appeals of the District of Columbia. A restraining order issued in the District Supreme Court against Blinn E. Torrey, (white), to prevent the sale of premises at 10 Randolph place, N. W., to colored person, was upheld by the Court of Appeals.

WICKED PLOT TO INFLUENCE HAITI BEING HATCHED

Correspondent Says Enemies of Haiti's Independence Are Conspiring to Injure Cause by Staging an "Armed Rebellion" of the People

To the Editor of the Negro World: I am writing, at the request of the Haitian people, to inform you that a plan is being engineered by the enemies of the independence of Haiti, to stimulate a taking up of arms, so that the American government may believe that order will be disturbed in the case of disintegration of the country.

TAKING UP THE "WHITE MAN'S BURDEN" NO LONGER EASY

From The Daily Worker, May 29 The Riffians are leading France a merry dance. In the days when the imperial powers were confronted only with bows and arrows and warriors whose only assets were calm nerves, the job of assuming a new slice of the "white man's burden" was comparatively easy. It was comparatively easy to take up the burden of the "white man's burden" because the world was then a vast, unexplored continent, and the only aim was to exploit the riches of the earth in their own way, and for their own benefit.

British observers have reported there is little possibility of any direct attack being made by the rebels against the British forces, but it is considered likely that the Emir will have to abdicate unless he can gather his supporters immediately and inflict decisive defeat upon the British. The SPOTLIGHT Negro His Own Enemy Franco and Prince Kojlo Bishop and Monkey Meat

I went to see Art last Saturday night at the Colonial Theatre on Broadway. "Lucky Bambo" was the attraction, the new musical comedy with an all-Negro cast. "Bambo" proved to be a very turbulent work during the World War.

And I came away with mixed feelings. To be sure, I enjoyed the show (and why not? To behold the cleverness of those boys and girls with their feet was, perhaps, the purgatory of being penned up in an auditorium for two hours and a half, with the thermometer registering 90 in the shade. But I came away feeling that my self-respect had been denied. Gloom settled over me. And when I crawled into bed, sans pyjamas, and curled sleep that came with lingering feet, my discomfort was complete. There, outting against the ceiling, veiling with the heat to torture, was the broad, round, protruding face of a Negro, one of the principals of the show, with a yawn, a sneeze, a frown, a look of despair. So well had the paint and the grease, the white spherical lines about his mouth, done their work of delusion a few hours before.

OUR WOMEN and WHAT THEY THINK - Edited by Mrs. Amy Jacques Garvey

WHY GARVEY SMILES EVEN WHEN HE SUFFERS THE patience and fortitude with which Marcus Garvey bears his imprisonment and physical disability is a wonder to his enemies, and a source of encouragement to his followers.

He has been shackled and dragged through the streets of New York several times, and when his persecutors, standing at the street corners, leered at him, they saw Garvey with his head erect, walking between two white marshals, as if he were a soldier going to fight for Africa.

When placed in a southern prison and made to suffer the humiliations and indignities accorded to members of his race, his enemies expected him to rebel against such treatment, so that it could be said that he had no respect for authority and was agitating in prison; but Marcus Garvey knows that it is the condition of his race that permits of such treatment—that very condition from which he seeks to lift them—and therefore he bears all cheerfully, knowing that when the Negro acquires a strong government on the continent of Africa even the least of its black citizens in any part of the world will be protected and respected.

Marcus Garvey's spirit cannot be crushed, because he communes with his God, and envisions a future for Negroes as God's masterpiece, which is man, should live. When a man can picture success and happiness, he can make it a reality. He feels and suffers for his people, but the vision of the future is like a beacon light that guides him out of the maze of suffering and persecutions. As Aristotle so aptly puts it:

"Suffering becomes beautiful when one bears great calmity with cheerfulness, not through insensibility, but through greatness of mind."

Marcus Garvey's courage and bravery has created hundreds of thousands of sympathizers in both races. Because of the personality of our leader they are becoming interested in his program and feel that this one man should not bear the burden of an entire race when the proper adjustment of the condition of the Negro race will also benefit the white race.

A white judge in a letter to Sir William Ware, the President of the Cincinnati division, states:

"I want you to know that I am deeply interested in the movement in which you are engaged. My interest is not political, for selfish at all. I feel that if we are to continue at all as a republic, that free speech, free press and universal right to equal freedom for any race or people is the foundation stone of our rights as a free people."

"I have followed Mr. Garvey and his work, and I want you to know how much I admire him and his ideals. I may not agree with the full program, but I do give you all the right to organize and seek the way to liberation—for the black man is not yet free. The real battle for his emancipation is yet to come. It will be hard—there will be many sacrifices to make, many who will have to give their liberty and freedom that your people may later enjoy a greater share of it for themselves."

"I am willing to serve you at any time in your cause; for mental agitation is vain and thinking leads to freedom. The human mind cannot always be kept in a straight jacket."

The above expressions are typical of the many letters we are receiving from white men of repute, who feel that Marcus Garvey should have been helped by the white race, and not ridiculed and persecuted; that intelligent Negroes should have rallied around him and helped to put over his program, which is the only solution for suffering Negroes everywhere, instead of abusing and betraying him.

Marcus Garvey smiles, and will continue to smile. Yes, even on the race because he knows that he has aroused in the hearts of black men and women a race consciousness that will never die, and that sympathetic white men are beginning to see the justice of the Negroes' demand and to help him. Black lands across the oceans of the world are united, and when one unit asks for freedom, or are compelled to fight for freedom, they do so with the full understanding that the black pulses of the world are registering in unison "Liberty or Death." And so Marcus Garvey smiles.

Heirs Starts Real Back To Nature Art Colony A recent "back to the land" movement inspired by boredom of dance, motion picture and theatre parties has resulted in the establishment of a tiny community on a plot of ground in Sussex near Chantonsbury, England.

BRITISH PEERS BAR WOMEN BY ONLY 2 VOTES

Lord Astor's Bill Giving Peers Seats in Upper House Defeated—Success Is Expected Later

LONDON, May 21.—The second attempt to qualify peers in their own right to sit in the House of Lords was defeated today by only two votes and the division list showed peers and even Bishops of all parties aligned against the bill according to individual opinion rather than political bias.

Defeat of the bill, which was sponsored by Lord Astor, was due in great part to Lord Bradbury, who while a member of the Commons, used to boast he had opposed every private bill introduced.

Lord Bradbury declared he thought the present government could not fall to the feeling of being tired of the House of Lords during the lifetime of the present Parliament. And in that case, the necessary amount of amendment, he had overruled his advice and permitted women to sit in the House of Lords.

The bill was defeated 89 votes to 78.
