## HON. MARCUS GARVEY SHALL NOT DIE IN ATLANTA PRISON!

### Negroes Called Upon to Redouble Their Efforts For the Release of Their Leader As His Health Gives Way Under the Hardships of Confinement

Recent news from Atlanta Penitentiary is very disquieting. All is not well, physically, with the Hon. Marcus Garvey, the indications being that his health is giving way under the strain and duress of prison confinement. He retains his mental equipment unimpaired; his indomitable will and courage still serve; but the sorely tried frame, which houses the marvelous mechanism that is the gift of God to the famous leader, is cracking and threatens to crash and crumble.

Those who have been able at close range to observe Mr. Garvey, to witness his tremendous capacity for hard and prolonged work, to perceive how little he spared himself and to note the varied effort he was able to crowd into his all too lengthy waking hours, must have been amazed at the ardor of the man, his genius for unremitting toil; they must have contemplated with awe and envy the apparent perfection of the body machinery which, fed as it were from an inexhaustible reservoir of energy, made such enormous output. But little was it known that, back of his tireless activity, his exacting obsession with his noble task, were many sleepless nights, his body racked by asthma, an ailment from which he has long suffered.

And so when he was sent to prison 27 months ago those mindful of his malady and well aware how asthma feeds and thrives on inactivity, and lack of sunlight, and enervating prison air, felt keen anxiety for him, and hoped and prayed that full five-years of confinement would not be his lot. When a few weeks ago, in spite of efforts by the sufferer to keep the fact hidden, it became known that Marcus Garvey was a patient in the prison hospital suffering from la grippe, coupled with a malignant attack of asthma, the anxiety of the few was shared by millions. He was discharged from the hospital, after a fortnight's stay there, in the course of which he lost twelve pounds, and his friends and followers throughout the world breathed a sigh of relief.

But it now appears that his condition is not such as to inspire optimism. Hon. Fred. A. Toote, acting president-general of the Universal Negro Improvement Association, back from a visit to the penitentiary, gravely warns the members of the Association that unless they redouble their efforts to secure the immediate release of their revered leader, he, Marcus Garvey, the hero and beloved of millions, the father of African Redemption, the victim of the artifice and hypocrisy of an unfeeling age, will be lost to the race—HE WILL DIE IN ATLANTA.

Hon. Marcus Garvey, founder and president-general, for the rest of his natural life, of the Universal Negro Improvement Association, is now a shell of his former self. The light of battle still burns fiercely in his eyes, but it serves only to accentuate the uphill fight which his unconquerable spirit is waging against afflictions of the flesh that get sustenance and strength in prison air.

Negroes, what are you going to do? *Mens sana in sano corpore*—a sound mind in a sound body—is as essential to Marcus Garvey, the accepted leader, the guiding star of the Negro race, as it is to Calvin Coolidge, Benito Mussolini or Aristide Briand; Eugene Chen, Kemal Pasha, or Mahatma Gandhi, the oracles of their respective peoples. We need not mention Stanley Baldwin, or Austen Chamberlain, or Lloyd George, for whom the proud British Empire would fight to the death, pressing Negroes, too, into service, if a hair of their heads was injured by the vandal hand.

Elaborate precautions are taken by every people, civilized or so-called uncivilized, to protect the persons of their leaders. When the honored President of this great Republic of America moves, a little army of defenders moves with him, for the leader but serves the people and is entitled to the full, uncompromising protection of the people. When Mussolini fares forth, black shirts, armed to the teeth, precede and follow and flank him, and woe to the miscreant who would do his precious body harm. President Doumergue of France on a forthcoming visit to London will ride through a protecting line of steel to Buckingham Palace. So true it is that white men appreciate the worth of great white men.

And the Negro must do no less. Though there is today in the world no powerful African republic to render inviolate the person of its chieftain, wherever he may happen to be, yet in four hundred million black men, scattered through the world, reside the ability and the power to defend the lives of those who have dedicated themselves to service in the interest of the common weal, so that a United States of Africa may issue from the realm of doubt and uncertainty.

Marcus Garvey, the protagonist of African Redemption, the painstaking, far-seeing, self-sacrificing builder of a home for Africans, those at home and those abroad, is today languishing in torment, physical and mental, in a prison cell. Far from being a criminal or to be despised, he is a great benefactor of the Negro race, a man to be respected and adored. Continued imprisonment will make of him a physical wreck, a subject for the sanatorium or the grave.

There is no time to lose. Marcus Garvey must be saved. Redouble your efforts, Negroes, in the communities wherever you may be. Knock unceasingly at the doors of those who hold the key of Garvey's cell in their hands, and he shall be delivered unto you.

And it behooves President Coolidge to see to it that a race is not cast down.

# THE PEOPLE'S FORUM

## Hope Burns Brightly For Chief's Release

To the Editor of The Negro World:

Your recent editorial which commented on the illness of our beloved leader, the Hon. Marcus Garvey, brings back my memory to biblical and political history. Like Jesus Christ, who suffered and died ignominiously on the Cross of Calvary for humanity, like Stephen, who was stoned to death for preaching the truth; like St. Paul, who suffered for the truth, and so with other apostles. Like Martin Luther, the great reformer; like Socrates, for the higher reason of man; like John Brown for defending his rights; like Abd-el-Krim, the Moroccan chieftain, for defending his country, and others too numerous to mention. So Marcus Garvey, through the earnest prayers of his followers and with divine guidance, will emerge and once more appear on the scene of action marshaling his forces in a courageous and unselfish manner.

Now nothing will please the chief better than to know that we give all support to save the shrine of Liberty, Liberty Hall, New York City. My division has come to the rescue and is determined to rally to the call.

We have pledged to give liberally until the 90 days have expired. Those who profess Garveyism will now show it, not with sentiment, but morally and financially. We acknowledge no other leadership but Honorable Marcus Garvey, and ere long may the hearts of President Coolidge and white America melt and return to us our God-sent messenger, the beloved and chosen leader of black humanity.

R. A. CHARLES,  
Guantanamo, Cuba.

## U. N. I. A. Members Have Garvey Spirit

To the Editor of The Negro World:

The members of the Universal Negro Improvement Association have acquired the spirit of the Hon. Marcus Garvey. This spirit has quickened, softened and elevated our minds and convinced us of our close kinship to God. To the new Negroes he is the most noble being born of his age save one. To interpret him with any degree of success requires genius. To interpret Marcus Garvey, racial love and gratitude must be your uppermost thought. His virtues and technique have fascinated and thrilled his associates. His miraculous qualities have made him an astounding figure in the history of the world. Strange enough, it is these qualities that most of our so-called leaders have attempted to minimize and make impotent by having him placed in the Atlanta penitentiary. But I say unto those spineless creatures, "There are no short cuts to great ends; therefore the imprisonment of Marcus Garvey is only a stepping stone to success."

No man with a clear conscience after reading an account of Hon. Marcus Garvey's life and the text of his trial has not felt sick at heart at the cruelty and miscarriage of justice. Marcus Garvey is loved by us. To us he is a heaven-sent gift. To us he is more than the symbol of the cause which he advocated. As a man he is

capable of sacrifice; as a hero, unchallenged. Marcus Garvey is a man of great strength of mind, hardness of physique. He is impelled by a stimulating idea and is being driven relentlessly toward its realization by the force within him.

Just as Joan of Arc is presented as the mother of her country, George Washington the father of his country, we, the new Negroes, present Marcus Garvey as the economic liberator of the Negro.

MISS LILLIE A. JONES.

## The Fight for Pardon For Mr. Garvey

To the Editor of The Negro World:

Your front page article of May 7 is the nearest approach to the remedy for that peculiar and shameful situation which has been facing us for the past three years—the imprisonment of Marcus Garvey. Congratulations! After this long while of thoughtless blundering of resolving sans resolve, of "sitting idly by while the opportunity of an age is allowed to pass by," we have at last come to realize that "the thing cries out to heaven for redress." For, have we not allowed a most glorious opportunity to slip through our very fingers a few years ago when we had the occasion to drive a wedge into the flank of the trouble and so prepare the world for the Birth of the New Nation? And who can gainsay the truth—that the strength of the weak is mightier than the weakness of the strong?

We have been clamoring for Mr. Garvey's release in the hope of the good he has already done. Our position was not clear. Our tactics were wrong. For, as I said in a recent letter to Mr. Rothchild Francis of the Virgin Islands: "Do petition us to beg, and the beggar receives nothing."

To the very few among us capable of seeing through deep racial complexities our cause has been strikingly similar to the childish simplicity of soldiers in the field begging of the opposing general the release of their captured commander. History bears no such precedent. In fact, the thing is in direct opposition to all the primary laws of nature.

Many a day has passed since the pages of The Negro World glistered with manly thought and spirit, ringing clear around the world of color, bringing together in common inspiration a mass of minds, untrained and untrained, yet in a measure capable, creating a mighty force of unparalleled potential greatness, whose very existence haunted the minds of the oppressor.

To return to this day is to travel anew to path of hope.

HOPEFUL,  
New York, May 15.

## Selfishness Keeping The Negro Down

To the Editor of The Negro World:

It is regrettable to state that the eight years in which the Hon. Marcus Garvey has devoted his precious life facing dangers of innumerable kinds to teach the Negro to shed his "Uncle Tom days of doing things," to abandon

## MARINES AND AEROPLANES ARE SENT TO NICARAGUA

Senator Borah Criticizes Administration's Nicaraguan Policy as "One of Ruthless Imperialism"

WASHINGTON, May 11.—The movement of 800 marines supplied with airplanes to reinforce Admiral Laitner in Nicaragua got under way today.

The aircraft tender Aroostook sailed from Quantico with six airplanes and aviation personnel and will stop en route at Charleston, S. C., to take on 100 marines from Paris Island. Later in the day 400 marines sailed from Quantico on the repair ship Medusa, while 300 marines were ordered to sail at once from Port au Prince, Haiti, on the submarine tender Argonne. Three airplanes with personnel also are to go from San Diego.

## CENTRAL PARK FAMOUS NEW YORK PLAYGROUND

One of the Show Places of the World Contains 840 Acres in the Heart of the Great City

From the New York Sun

Central Park, the oblong tract embracing slightly more than 840 acres in the heart of Manhattan, is the principal playground of the city. The park is two and a half miles long, running from Fifty-ninth to 110th street, and its width from Fifth avenue to Eighth avenue (Central Park West) is a half mile. About 400 acres are wooded and 286 are occupied by lakes and reservoirs.

At a recent meeting held in this city Mayor Walker said he wanted to see Central Park made "the finest in the world" and told of plans to rehabilitate it. He estimated the park's worth at \$1,000,000,000, and said the \$1,000,000 had been appropriated this year for its upkeep.

One of the most picturesque sections of the park, which was completed in 1858, is called the Ramble. There at one point is a natural cave and in the neighborhood a cliff that is reached through a system of winding paths, ways and bridges. Another noteworthy possession of the park is the famous Egyptian obelisk, Cleopatra's Needle, which was presented to the United States by the Khedive of Egypt in 1877. The obelisk, which is 69 1/2 feet tall and weighs 224 tons, originally stood in Cairo in front of the Temple of the Sun. It was erected about 1500 B. C.

The Central Park Arsenal, remodeled in recent years, formerly was a storehouse for the State's military supplies. In the northeastern section of the park is McGowan's Pass, which marks a site associated with the history of the American Revolution. Among other interesting things in the park are a flock of sheep, the menagerie and the Belvedere, a granite structure with a 50-foot tower.

## Women Laundry Workers Organize First Strike

Twenty-eight colored women employed by the North American Laundry have organized the first strike of colored women in New York and are out for an increase of wages, bringing their weekly wage up to \$16 per week, pay for overtime, weekly work and the privilege of a shop committee.

At present the women are paid by the day on a basis of \$12 to \$14 per week, wages being cut when work falls off. The average hours of work are from 8 a. m. to 7 p. m. with three-quarters of an hour for luncheon. Conditions are bad, no dressing rooms being provided for them, as is required in factories.

The drivers have joined the women workers in a sympathetic strike and walked out last Monday to assist them in picketing the North American Laundry building at 500 East 164th street.

Ross Schneiderman, president of the Women Trade Union League, yesterday estimated the number of colored women laundry workers in the city at 10,000. The majority have very poor conditions and very low wages, though a small proportion have been organized and have secured, through the efforts of the Trade Union League, increased wages, bringing the minimum salary up nearer the minimum living wage for New York City.

## OPPORTUNITY

Public Speaking Taught by Mail. 10c. will bring you the proposition. Write The Universal Speaker's Bureau P. O. Box 184 Kingsburg, Calif., U. S. A.

## Senator Borah Criticizes Administration's Nicaraguan Policy as "One of Ruthless Imperialism"

WASHINGTON, May 11.—The movement of 800 marines supplied with airplanes to reinforce Admiral Laitner in Nicaragua got under way today.

The aircraft tender Aroostook sailed from Quantico with six airplanes and aviation personnel and will stop en route at Charleston, S. C., to take on 100 marines from Paris Island. Later in the day 400 marines sailed from Quantico on the repair ship Medusa, while 300 marines were ordered to sail at once from Port au Prince, Haiti, on the submarine tender Argonne. Three airplanes with personnel also are to go from San Diego.

## Find Elephant's Skull Million Years Old

MOSCOW.—An elephant's cranium which, according to scientists, has been preserved in mineral oil for more than a million years, has been discovered at the village of Solenyakalka near Grozni, on the Caspian side of the Caucasian Isthmus, by Prof. Varvil Arkhanelsky. Zoologists say the skull belonged to a species that wandered the earth for thirty or forty million years, until it became extinct a million years ago, leaving the mammoth mastodons as their paltry progeny.

## Women Laundry Workers Organize First Strike

Twenty-eight colored women employed by the North American Laundry have organized the first strike of colored women in New York and are out for an increase of wages, bringing their weekly wage up to \$16 per week, pay for overtime, weekly work and the privilege of a shop committee.

At present the women are paid by the day on a basis of \$12 to \$14 per week, wages being cut when work falls off. The average hours of work are from 8 a. m. to 7 p. m. with three-quarters of an hour for luncheon. Conditions are bad, no dressing rooms being provided for them, as is required in factories.

Send orders to UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION, 148 West 130th Street, New York City.

## MONACA REPORTS ARMS PROGRESS

TIPITAPA, Nicaragua, May 11.—General Jose Maria Moncada, commander of the Liberal army, expressed the belief tonight that the arms of 90 per cent of the Liberals would be laid down by Saturday. His statement came after a long conference with Henry L. Stimson, President Coolidge's personal representative; Charles C. Eberhardt, the American minister, and Rear Admiral Laitner.

General Moncada invited Mr. Stimson to address the Liberal army prior to its demobilization on Saturday at Los Banderos, thirty miles from Managua, and Mr. Stimson accepted.

The Liberal general desired that the American mediator explain to the army that the action of the United States in enforcing peace was not a pro-Conservative act, but for the best interests of the nation, and as a guarantee of free and honest supervised elections in 1928.

## Manless Plow Guided By Electricity

LINCOLN, Neb., May 5.—A "manless" tractor, controlled by an electric device, plowed a field successfully yesterday before a crowd of farmers, professors of agriculture and business men.

Unaided by a human hand, except when the first furrow was plowed to make a guide furrow, the machine, equipped with an automatic guide invented by F. L. Zibach of Grand Island, Neb., plowed a twenty-acre field on the College of Agriculture farm of the University of Nebraska, near here.

The tractor runs in an irregular circle, rounding the corners. Except for replenishing the gasoline and oil, it needs no attention. The electric control stops the machine should it leave the furrow and when the work is completed.

## Issue Called in and Interest Ceases as of November—Now Is the Time to Cash In

WASHINGTON, May 9.—Using the radio, newspapers and other mediums of communication, the Treasury Department today was calling the \$1,700,000,000 outstanding bonds of the Second Liberty Loan.

These bonds, representing the balance of the original issue of \$3,807,865,000, will be paid November 15, and after that date securities of this issue still outstanding will no longer bear interest.

Bonds called include the Second Liberty Loan 4 per cent and the Second Liberty Loan converted 4 1/4 per cent. Secretary Mellon believes that quite likely the Treasury will be able to offer holders of these bonds some other Government security in exchange on the pay date.

## Selectman a Descendant of President Monroe

Hillsborough, N. H., points with pride to the fact that one of its selectmen is a direct descendant of a former President of the United States. At the annual town meeting Fred B. Monroe, a member of the board for the last three years, was re-elected for the next two years. He is a direct descendant of James Monroe, fifth President of the United States, says the Boston Globe.

## GETTING UP NIGHTS

Pains in Back, Burning Sensation and other troubles caused by Kidney, Bladder or Prostate Gland, which quickly respond to the scientific treatment prescribed by well-known Kansas City doctor, produced such amazing results that the W. B. Way Company, 50A Westover Arcade, Kansas City, Mo., has prepared a pamphlet for every sufferer to get the benefits that this wonderful medicine affords. Write for it. Any man or woman suffering should consider it first duty to write for information about this guaranteed home treatment at once.
