To Be Of Real Service Race Leaders Must Have Vision

Leaders Must Be Able To Guide Race Safely From Dangers—Salvation of Negro Depends On His Own Efforts—Own Exertions—Unite and Organize Forces—Build Own Future

Race Must Not Be Deluded By False Guidance of Incapable Leaders—Must Be Able To Master The Problems Confronting Us—Must Take Interest In Its Own Welfare

"Let Us Each Be Interested in the Other" — Says President-General

We talk about human prejudices. If you knew really the prejudices around us in the world you would not fail

Copyright Policy E. H. H. 11

for one minute to realize how difficult it is for the Negro to exist.

We who are leaders are confronted with a tremendous problem at this time. It is very well for us to make a noise on popular issues and leave the real problem there, but such a leadership does not take us very far. One man came to me and told me that he had a conversation with a great leader of the race who has often been in contact aggressively with the Universal Negro Improvement Association and he was discussing with him the seriousness of the situation and the leader said to him there is nothing to be alarmed about, that the Negro is now getting the best opportunity he ever got before and will ever get, and that there is nothing to worry over. That is all well. That is one of the prominent leaders of our race, and this man came back and told me what this other man said who was making an effort to bring all the

Mme. M. L. T. DeMena, International Organizer, Visits New Port News And Delivers Rousing Address

The members of this division and the people of Newport News generally had the pleasure and profitable experience of a series of lectures by Madame M. L. T. DeMena, International Organizer, over the period of Thursday and Friday, November 21, and 22, 1929.

The division had taken up with the organizer the matter of the exact status of the various divisions since the Convention at Jamaica, 1929, and took advantage of the occasion not only to enlighten the members, but to spread the gospel of Garveyism to the city at large.

At eight o'clock on the evening of the 21st, the meeting was called to order and opening services were conducted by the Chaplain, Mr. Riggs. The choir as usual rendered inspiring music, after which the vice-president of the Norfolk Division, Mr. Smith, was introduced to the audience, and in well chosen words spoke of the aims and objects of the organization, with a prediction of the future earthly salvation of the darker people through its program.

Mrs. DeMena then came to the large audience, being introduced by Miss Pauline Toombs, one of the younger members, and choosing the subject "Playing the Game," proceeded in her magnetic and inimitable style to show how Marcus Garvey, in the great ball game of nations and peoples where the prize is the preservation of life and freedom, has gone to the bat, as it passed out of those hands to whom it was entrusted, and of how he has battled the ball out beyond the field where it will take those who oppose his program at least ten years to find it; that Marcus may be likened to the "Babe Ruth" in the game that the nations are playing ruthlessly for the survival of the fittest, and calling on those who are indifferent to grasp opportunity while it knocks. The 22nd was very incident, but (Continued on Page Eight)

Race Farmers of Alabama Hear Pres. Hubert of Ga. State College In A Practical, Helpful Talk

MONTGOMERY, Ala.—Having as his inspiration the presence of more than 200 substantial colored farmers of Montgomery county and the attractive exhibit of 2,500 pounds of homegrown pork and 105 dozen of eggs, Pres. Benjamin F. Hubert of Georgia State College was the featured speaker at the third annual conference of Montgomery county's colored farmers held today at the Alabama State Teachers College, H. Councill Trenhold, president.

Presented as a recently appointed member of the Advisory Committee of the National Illiteracy Commission, President Hubert began by urging every farmer to learn at least to read.

In a most practical and appealing fashion, the speaker emphasized the importance to every farmer of (1) getting some land that he can love; (2) finding out what land can best produce; (3) getting first class stock and everything else that can work for the farmer; (4) recognizing that not only capital and labor but sense as well is necessary for successful farming; and (5) participating in all the efforts at cooperative marketing that are set up by the proper county officials.

Other speakers at the morning session included Supt. W. R. Harrison, of the Montgomery Schools; Messrs. Simon Roswald of the State Fair, and D. C. McInnis of the Royal Mills. The conference devoted the opening hour to community reports on the work of these units during the year.

The officers of the Montgomery County Colored Farmers Association as reelected are Mr. O. C. Crowe, president; Miss Sadie Jordan, secretary; Mr. Dan Isiah, treasurer; Mr. W. C. Campbell, chairman of Executive Committee, and Mrs. Emma Jordan, chairman Woman's Division.

Among the visitors in attendance at the conference were Messrs. T. M. Campbell, E. C. Dobbs, V. C. Turner, C. H. Gibson and Miss L. C. Hanna of the Extension Division with headquarters at Tuskegee Institute; President J. F. Dormal, Messrs. J. P. Phillips, M. L. Blackwell and Mrs. L. E. Daly, who have been county agents in Montgomery County in previous terms; Mr. L. M. Edmondson and other representatives of the demonstration division of Montgomery County, and a representative group of the colored ministers of the city.

Negro Workers In the South Are Starving

Workers' International Relief Is Establishing Kitchens

Thousands of unemployed and blacklisted Negro and white workers in the South are starving. This is the message sent to the Workers' International Relief, 949 Broadway, New York City, by a Leaksville, N. C. worker, whose name is being withheld to protect him. Leaksville is the town where a textile strike recently occurred. The worker's letter states:

"From local reports thousands of workers, both black and white, are starving in more than 85 counties of this state. Thousands of workers, of course, are unemployed, and when they were employed they only received enough to pay one-half of their real expenses. Thus the whole family was forced to work. But now many of the workers have (Continued on Page Eight)

Wave of Lynch Terror Sweeping Through South

I. L. D. Branches Intensely Struggle Against This Evil

Each of the 481 branches of the International Labor Defense sharply intensified its struggle against lynching and racial discrimination, upon reports of the wave of lynch terror sweeping the South, which had burned Jimmy Irvine, Oailla, Tenn., Negro tenant farmer, at the stake, in a reversion to medieval barbarity. "We have reports," J. Louis Engdahl, general secretary of the I. L. D., stated today, "that more than 40 Negro workers have been arrested and held for questioning at Reidsville, N. C., in a case of alleged rape, and that Locke, Negro worker of Wilmington, N. C., was arrested last Sunday night and tortured into confessing that he committed a murder and attempted a rape on Mrs. Steve English of Wallace. "It is apparent," Engdahl said, (Continued on Page Eight)

Races Confer In Georgia Annual Meet

State Interracial Committee Brings Hundred Leaders Together for Conference

ATLANTA, Ga.—The annual meeting of the State Interracial Committee, held at the Butler Street Y. M. C. A. a few days ago, brought together a hundred white and colored leaders, men and women, interested in the promotion of better race relations and better conditions for Negroes in the State of Georgia.

The meeting was presided over by Bishop F. F. Reese, of Savannah, and many prominent people appeared on the program, among them Hon. M. L. Duggan, state superintendent of education; Walter B. Hill, state supervisor of Negro schools; Dr. Comer Woodward, of Emory University; Mrs. E. Marvin Underwood, of Atlanta; Dr. D. D. Crawford, Forrester Washington, Dr. H. R. Butler and others.

The discussions of the day centered about a variety of subjects which had been suggested by the various members of the committee, including education, health, housing, legal aid, economic opportunity, transportation, civic advantages, the ballot, etc. The discussion was free and general, and very enlightening. (Continued on Page Seven)

Our Christian Obligation To The Negro

By REV. A. M. PIERCE, D.D., Editor Wesleyan Christian Advocate, Atlanta, Ga.

It has now been sixty years since the Negro was given his freedom. These have been years of phenomenal progress by him in various directions. It has been said freely that no other race has made such progress in such short time. This fact pays worthy tribute to his ability and energy. It also speaks in convincing phrase of the kindly interest, the fairness, even the magnanimity of his white neighbor.

Not yet, however, have we reached perfection. Inevitably has our attitude been colored by the former relations in which we stood to each other. This still is true. But the time has come when we must look up the Negro as a fellowman, and upon the Negro as a fellowman, and hitherto. Indeed, we must continue to go beyond justice and treat him with a yet larger generosity.

In dealing with this condition we must not idealize the situation. It may be true, as some contend, that the white race has not innate superiority to the black race. It may be true that under equal conditions and the proper lapse of time the Negro race might prove itself the equal of the white race. But this much is (Continued on Page Seven)

College Groups Interested In Race Relations

ATLANTA, Ga.—An encouraging phase of the interracial situation in the South, according to the Commission on Interracial Cooperation, is the interest which the colleges are manifesting in the subject on the part of both professors and students.

Courses on race relations, either by that name or in connection with the work in the social sciences, are given in a hundred colleges, and a large number of students are reached in this way. Speakers on race relations go every year into many of the schools, sometimes as many as 10,000 students in a single year. Volunteer study courses and discussion groups in race relations are being conducted by the student Christian associations.

The Lincoln Secretarial School

Lincoln secretarial school was formed in 1928 to meet a long felt want. Prior to its formation, a large number of Negro students were unable to secure that instruction to which their intelligence undoubtedly entitled them. To meet this want, the school assembled a trained group of experienced teachers who were specially adapted for the work required and also were especially interested in the welfare of the colored races.

In an atmosphere devoid entirely of prejudice, under the direction of sympathetic instructors, both colored and white, the students of this nationally known school have opportunity for educational advantages not previously found.

The school is located in a fireproof building which was specially adapted for school purposes. Owing to the rapid growth of the school, considerable additions have been made since it was opened. Located at 261-269 West 125th Street, near the Ninth Avenue "L", it is easily accessible from all parts of Greater New York City. Crosstown cars pass the school building.

All commercial courses are given. Secretarial, stenography, typewriting, bookkeeping and accounting, with a thorough course in office training, high school English and commercial English are also taught. Additional subjects are French and Spanish.

The principal of the school, Prof. Gilby Robinson, L.L.B. (London), F. I. P. S., is a teacher of many years' experience with an international reputation, having taught in Great Britain, Canada and for the last twenty years in the United States. He is an English lawyer, author, lecturer and is peculiarly and adequately adapted to fill the high position he holds. He is ably assisted by Prof. Howard Day, B.S. (College of the City of New York), (M.A. (Fordham University)), who is in charge of the classes leading to the P. S. license No. 1, City of New York.

Mr. Louis Lieblich, B.C.S., B.S., in Ed., is in charge of the accounting department and is forming, for the new year's term, classes in Real Estate, Economics, Commercial Law and Insurance, leading to brokerage license, while Mr. Raymond Dreacher, B.S.S., is principal instructor in the Civil Service Department.

It is to be specially noted that all teachers in this school comply with the requirements of the Board of Regents, State of New York. Special catalogs will be sent on request (without any obligation) by Miss May Feid, Registrar.

Biography of Prof. Garver Published

(By The Associated Negro Press.) TUSKEGEE INSTITUTE, Ala.—"From Captivity to Fame" is the title of a recently published biography of George Washington Carver, agricultural chemist of Tuskegee Institute, by Raleigh H. Merritt. The book is published by the Meador Publishing Company of Boston, Mass.

Mr. Merritt, a former student of Dr. Carver, briefly sketches the career of his famed tutor telling of his early struggles for an education, of his work at Tuskegee, of the versatility of the man and of his achievements in discovering new products from the native resources of the South.

The volume also includes a supplement which contains a number of pamphlets issued by Dr. Carver.

Excelsior Division, U. N. I. A. August 1929 of World Stages Another Interesting Meeting

Enrolling Many New Members

Sunday, February 9 New York City, N. Y.: Friends and members of the new Excelsior Division, U. N. I. A., August, 1929, of the World, crowded into Room No. 4, Lafayette Hall, 165 W. 131st Street, tonight, on the occasion of a meeting held by that division. Everyone present seemed deeply interested in the proceedings, and the spirit of enthusiasm was manifest in every corner of the hall. Long before the hour for the opening of the meeting the friends had gathered, and eagerly awaited for the proceedings to begin.

At precisely half-past eight o'clock, the chaplain Rev. K. Baxter announced the opening ode, "From Greenland's Icy Mountains," which was sung lustily by the friends in the gathering. Prayer from the ritual followed, led by the chaplain, then came the singing of the hymn, "God of the Right, Our Battles Fight." Among the officers present were the president, Rev. R. T. Brown, Mr. J. E. Samuels, 1st vice-president, Mrs. A. Cooper, 2nd vice-president, Rev. K. Baxter, chaplain; Capt. R. Chambers, treasurer; Mrs. L. Chambers; 2nd lady vice-president; Mr. H. Balfour Williams, executive secretary; Miss Selma Davis, corresponding secretary, and Col. Luther Thompson, chairman of trustees.

The president occupied the chair, and in his opening remarks, reminded the audience that they were gathered there under the auspices of the Universal Negro Improvement Association, August, 1929, of the World, following the lead of Marcus Garvey, founder and President-General, making it clear to everyone present that it was absolutely necessary at this time, that we recharge our souls with new courage, new hope, new determination, and sublime faith, for, he said, we shall have to face great trying tasks in the days ahead, but it behooves us, as true and undaunted sons and daughters of Ethiopia, to know no defeat, to allow nothing to turn us aside, from the attaining of the purpose we have set out to achieve; that nothing in this or any other world is to be allowed to cross our path, or to mar our vision, till this proud race of conquering and ir-

Negro Veterans Are Awakening

Have Been Silent for More Than Ten Years

According to reports from the headquarters of the National Council, World War Veterans, Inc., the Negro-ex-service men are awakening to the fact that they should organize. For more than ten years a number of them have deluded themselves with the idea that the American Legion, or some such organization of white veterans would miss the membership of the Negro, and possibly in the hope that they would be forced to join, they have waited and waited. Many of them are still waiting, it is said.

The matter was recently brought to more or less of an issue, it seeming that a group of veterans in South Carolina had originated what they "thought" a Post of the American Legion. They formed a body of honorably discharged veterans and then made their application to the American Legion for a charter. For

more than two years, according to the statements of the men themselves, they have been put off with one excuse or another, but have never been recognized or the organization issued a charter of any kind. Tiring of the inability of their officers to secure them any recognition, the group met and communicated with headquarters of the N. C. World War Veterans, which is the original veterans' association of the World War, and without any red tape, the Post was given its charter in the World War Veterans.

As soon as the balance of the Negro veterans who have been "hoping" for admission to the American Legion understood that they may never be actually refused, but at the same time never issued a charter, then just that soon will the Negro veteran come into his own, in an organization that does want him for his value as a veteran. Two thousand nine hundred and ninety-five charters have been issued by the N. C. W. W. V. to date, so the inspector general reports.

Howard Alumnus Gains Prominence in Cincinnati

Dr. Beamon Led the Negro Forces in Support of the Charter Form of City Government

WASHINGTON, D. C. Carrying into life the same genial disposition, courage and tenacity which characterized him as a student, gridiron star and good fellow, Reginald E. Beamon, college and dental graduate of Howard University, has attained a position of acknowledged leadership, not only among the dentists, but the Negro citizens of the city of Cincinnati.

In a letter recently received from the executive secretary of the Negro Civic Welfare Association, a department of the Community Chest and Council of Social Agencies of Cincinnati, there appears the following significant statement:

"During the past four years more progress has been made among all lines in this city than was made during the previous forty years. The most significant happening among Negroes is the emerging of a newer leadership in the person of Dr. Reginald Beamon, a prominent dentist of this city, and an alumnus of Howard University. Dr. Beamon led the Negro forces in their support of the Charter form of city government, which resulted in the election of six charter men, of whom five were Negroes to the city Council.

"Dr. Beamon is now in a strategic position which will enable him to secure the appointment of a number of Negroes to important positions in the city administration. No Negro has occupied a more strategic position in Cincinnati during

the past quarter of a century. His elevation to this position is the more important because of his contact with the Y. M. C. A. and other social agencies and what they represent."

Dr. Beamon was one of the thousand dollar contributors to the recent medical endowment campaign, a gift accompanied by the expression: "If I can't give Howard one thousand dollars for all that Howard has given me, I should be ashamed to practice dentistry."

Such a spirit, if prevalent among the alumni, would account for a fund commensurate with that of any other university of equal size and importance.

## Negro Empires Were Older Than Greece, Rome, Medo - Persia, or Syria, Modern Research Reveals

### Negro of Today Must Assert Himself—Must Add His Quota to World's Welfare so that "Africa for the Africans" Is Assured

#### Pages of the World Focused on the Negro and His Activities

By C. S. MAXWELL

The record of the Negro's glorious past that has for ages lain buried beneath the debris of night's destruction, is now being excavated by the modern light of science and new Negro. This brings a surprise, yet an undisputed fact, that the acknowledgment of the Negro's past is the beginning of the present, though unwilling to own it, Negro Empires were older than Greece, Medo-Persia, or Syria.

The propaganda of the Negro's inferiority to the white man is as much the lord of creation as the white man. Therefore you must play your part with ideals that history will declare that you did not wonder in vain. Marcus Garvey, the prophet of the Negro's future, said: "Africa for the Africans." And through we may have to use force to humble the white man, we must use the sword to help to tell the Empire of the strong are on their own.

### "Unpreparedness Cause of Failure" Says Miss Nannie H. Burroughs

By GLADYS E. PARKER

It is necessary for us to blame ourselves for our failure to succeed in life. Failure is due to the inability of the man or woman to go forward, after feeling that he or she is prepared to meet the hardships of the world.

### Dental Talk

By J. WOODRUFF ROBINSON, D.D.S.

Many edentulous patients go to the dentist in search of relief of a recent pain which they have in a particular area of the gum, tongue, or cheek, brought on by wearing their dentures or eating with them. Sometimes the pain is continuous; at times it is not.

### Pains in Edentulous Patients

Whenever an inflammatory reaction is set up the resulting process is designated by the term pleurisy. Pleurisy assumes various names according to the factor which is responsible for the occurrence and also the kind of inflammation which results therefrom.
